

TECHFIT HEALTH & FITNESS

COMMERCIAL GYM SETUP COST GUIDE & ROADMAP

AN AUTHORITATIVE SOURCING BLUEPRINT FOR B2B DEVELOPERS,
HOTELIERS, AND GYM OWNERS

2026 EDITION

TECHFIT FACTORY & HEADQUARTERS: Mumbai

WHY LOCAL B2B FABRICATION & SETUP WINS

The B2B Commercial Advantage in India

Setting up a professional commercial gym or sports facility in India has traditionally suffered from two major operational bottlenecks: high import markups on standard brand catalogues and long shipping times. TechFit solves these bottlenecks through direct factory-sourcing and bespoke domestic fabrication.

1. Up to 40% Net Cost Savings via Factory-Direct Sourcing

By sourcing directly from primary global brands like BH Fitness and Tunturi, and custom fabricating heavy steel rigs and cages domestically in Mumbai, we completely bypass third-party trading markups and international sea-freight overheads.

2. Zero Customs & Transit Delays

Importing heavy steel structures from overseas frequently incurs 12-16 weeks of sea shipping and clearance bottlenecks. TechFit manufactures frames, rigs, and cages locally, enabling immediate delivery, seamless installation, and guaranteed schedules.

3. Lifetime Structural Frame Warranty

All custom-fabricated combat octagons, functional training rigs, and free weight storage frames are welded from structural-grade 11-gauge steel (4mm+ thickness) at our Mumbai facility. We stand behind our steelwork with an industry-leading lifetime warranty.

4. Direct Localized Support & Annual Maintenance (AMC)

Having a localized factory partner ensures immediate access to replacement parts, certified service engineers, and robust monthly preventive maintenance contracts, maximizing your operational uptime.

EQUIPMENT CATEGORIES & COST BANDS

Indicative Commercial Project Estimates (INR)

The cost bands listed below are high-level indicative estimates for commercial project scoping. Exact figures depend heavily on facility dimensions, selected equipment lines, and structural steel customization.

Category	Indicative Price Range (INR)	Lead Time & Warranty
Commercial Cardio Line (BH/Tunturi)	12,00,000 - 45,00,000	15-45 Days / 3-Yr Motor
Selectorized & Strength Stations	15,00,000 - 55,00,000	20-60 Days / Lifetime Frame
Custom Custom-fabricated Rigs	3,50,000 - 15,00,000	15-25 Days / Lifetime Warrantv
MMA Cages & Competition Rings	2,50,000 - 9,50,000	10-20 Days / Lifetime Warrantv
Alteon Wellness & Longevity Suites	25,00,000 - 95,00,000	45-90 Days / 2-Yr Clinical
Gym Flooring & Underlayments	2,00,000 - 12,00,000	10-15 Days / 2-Yr Warranty

* Note: Pricing ranges represent standard premium commercial setups. Wellness suite covers Elysion Hard-Shell HBOT, Cryoblast Electric Chambers, and Photobiomodulation (PBM) red-light setups.

TURNKEY COMMERCIAL GYM SETUP ROADMAP

Step-by-Step B2B Implementation Flow

From initial space analysis to custom engineering, manufacturing, certified installation, and operational handover, TechFit guarantees a seamless implementation pipeline.

PHASE 01

B2B Technical Space Audit & 3D Layout (Days 1 - 5)

Our design team conducts a thorough space audit, mapping columns, electrical loads, and structural floor tolerances. We generate comprehensive 2D CAD and 3D mockups mapping equipment spacing, safety run-offs, and athlete flow patterns.

PHASE 02

Custom Fabrication & Equipment Sourcing (Days 5 - 25)

Heavy strength frames, functional CrossFit rigs, and custom fight cages enter fabrication at our Mumbai workshop. High-performance cardio systems and wellness capsules are prepared for dispatch with tailored console selections.

PHASE 03

Vibration & Acoustic Flooring Underlayment (Days 20 - 28)

We lay down premium, high-density shock-absorption rubber tiles, acoustic underlayments, and dynamic sprint turfs. This prevents structural vibration transmission, eliminates sound issues, and protects the base sub-floor.

PHASE 04

Certified Technical Installation & Handover (Days 25 - 35)

TechFit factory engineers perform complete, certified hardware assembly. We anchor custom rigs, tension cage wire panels, calibrate clinical Alteon wellness chambers, and run rigorous load-testing before operational handover.

SIGNATURE B2B COMMERCIAL CASE STUDIES

Proven High-Performance Infrastructure In Action

TechFit has fabricated and supplied professional gym and combat-sports infrastructure to India's most prestigious fight leagues and signature sports academies.

Matrix Fight Night (MFN) — Competition Cages & Rings

TechFit is the official competition cage and boxing ring fabrication partner for Matrix Fight Night (MFN 1-15), India's premier professional MMA promotion founded by Tiger Shroff and Ayesha Shroff. We custom fabricate elevated competition octagons, floor training cages, and podium structures, engineered to withstand massive structural impact.

Super Fight League (SFL) — High-Strength Combat Infrastructure

We manufactured and supplied the heavy-duty, reinforced structural steel combat cages for televised Super Fight League (SFL) stadium tournaments. Our octagons utilize customized corner cushion padding, high-tensile vinyl chainlink netting, and custom-tensioned canvas boards.

MMA Matrix Gyms — Custom Combat & CrossFit Setups

TechFit engineered, manufactured, and installed complete, integrated functional training setups, custom strength rigs, combat training octagons, and specialized boxing frames for Tiger Shroff's signature MMA Matrix fitness centers across India, validating our commercial durability.

PREMIUM COMMERCIAL BRAND PORTFOLIO

Global Brands Sourcing & Reselling

TechFit is the Equipment Partner & Authorised Distributor (India) for world-class, premium strength, recovery, and cardio brands.

BH Fitness — Commercial Gym Equipment (Spain)

A world-leading commercial fitness brand with over 100 years of engineering heritage. Supplied by TechFit as Equipment Partner (India), featuring unmatched ergonomics, biomechanics, and premium touchscreen displays (Movemia and Inertia lines).

Tunturi — Premium Strength & Wellness (Finland)

Pioneers of European fitness and wellness since 1922. TechFit acts as Equipment Partner (India) for Tunturi cardio and commercial strength stations representing absolute precision engineering, clean Scandinavian aesthetics, and commercial-grade durability.

Alteon — Clinical Biohacking & Recovery Suites

Premium longevity and recovery equipment, supplied by TechFit as the Authorised Distributor (India). Includes monoplace hyperbaric oxygen chambers (HBOT), pure electric whole-body cryotherapy cabins, waterless dry float beds, and high-performance red light panels.

California Fitness — Heavy Selectorized Strength

Maximum strength selectorized machines and plate-loaded stations, supplied by TechFit as Equipment Partner (India). Engineered using thick-wall structural steel, heavy-duty pulleys, and precise biomechanical pivot angles for commercial power gyms.

READY TO PLAN YOUR CUSTOM B2B GYM SETUP?

Collaborate Directly with our Mumbai Factory Team

Whether you are a developer scoping a residential high-rise amenity, a hotel chain developing a recovery lounge, or a premium gym owner building a signature venue — TechFit delivers turnkey B2B excellence.
